Dear Parent

Celebrating Success

Following the successful introduction of our 'VIVO' reward system we are again looking for ways to celebrate student success in various ways across the school. Celebrating success in all aspects of school life is essential in motivating students to be the best they can be and exceed their potential. The celebration of success is always more memorable and has a greater impact on students if it is a surprise!

I am therefore writing to inform you that we intend to celebrate success by running a number of surprise activities and events across the school during each term. The event will be a reward for a particular activity for example participation in extra- curricular events, an outstanding Learning Progress Summary, continuous effort or exceptional punctuality. Reward events may include a music concert, a trip to the cinema or a paintballing activity.

These activities will be run during the school day and on most occasions students will be informed about them on the morning of the event, unless they require specific equipment or clothing or the event will run on past the end of the day. In these instances parents will be notified separately. For the majority of celebration activities taking place off site, students will return to school in time for school transport at the end of the day.

Students will be accompanied at all times by members of staff, including a senior member of staff with each visit.

If you would like your child to be removed from having the opportunity to take part in any celebration events, please let your child's Year Leader know as soon as possible.

We would also like to know of any achievements your child makes out of school so that we may have an opportunity to reward them for these activities also, and your child's Year leader again would be delighted to hear about these.

I look forward to sharing the activities on our celebration events with you through our newsletters and the school website.

Yours sincerely
